

TRACTOR PULL, KIDDIE STYLE 2023

The kiddie tractor pull has been a feature at the Schoharie County Sunshine Fair since 1988. The pedal tractor pull works on the same principle as the big tractor pull except the power comes from the kids.

We use a weight sled that hooks to pedal tractors and the child pedals to pull the sled down a 30 foot track until they make a full pull or run out of power. A full pull entitles the child to another chance with weight added to the sled until a winner is determined. The longest distance wins and there are 5 weight classes determined by the child's weight. Weight classes are 30-40 lbs, 41-50 lbs, 51-60 lbs, 61-70 lbs, and 71-80 lbs.

We weigh the child as he or she signs up for this event. We provide the tractors and every child receives a ribbon. There is no fee to enter, so come and participate or watch the fun on Thursday at 7 p.m. east of the Hall of Ag walkway.
